FACE-TO-FACE CLASSES ONLY When you Teach, Submit this TOP PART

Teaching Extra Credit

You will teach from a ThingToBring link to be supplied. **NOTIFY the instructor** on the day you teach. You will not receive a reminder nor grade if you do not teach on your assigned date.

Read, study, make notes, think of examples of all vocabulary words and concepts, discuss and **be ready to answer questions** from the class or instructor. Speak LOUDLY.

If you use presentation software, bring on a **flashdrive** AND upload it to the cloud to retrieve it as a backup. Use large fonts. **Do not read from your Powerpoint**. Do not spend much time on media/images or interesting but irrelevant points. Do not play videos or recordings. Get close to your audience and SPEAK LOUDLY! Students who try to retrieve presentations from the cloud often get delayed from 2-step verifications.

DO NOT RETRIEVE YOUR PRESENTATION FROM THE INTERNET!

DO NOT READ FROM YOUR POWERPOINT!

DO NOT MUMBLE!

Teach for 10 min.

Your grade depends on your ability to teach the content to the class, in a way that students easily understand. Make your presentation **loud**, clear, and interesting. You will not receive a grade for merely reading from the chapter. If you want an above average grade, deliver an above-average performance.

There is not much instruction for this assignment. Just 10 min. You have much flexibility in your research, content and delivery. Make it scholarly and interesting!

Warning! Ensure that you choose correctly from Economics OR Sociology below.

To reserve your extra credit choice see the link for your class on professormike.info
Submit your Hill email address to see the choices - no obligation.
